Path-consistency

Less generation. Flexible composition.

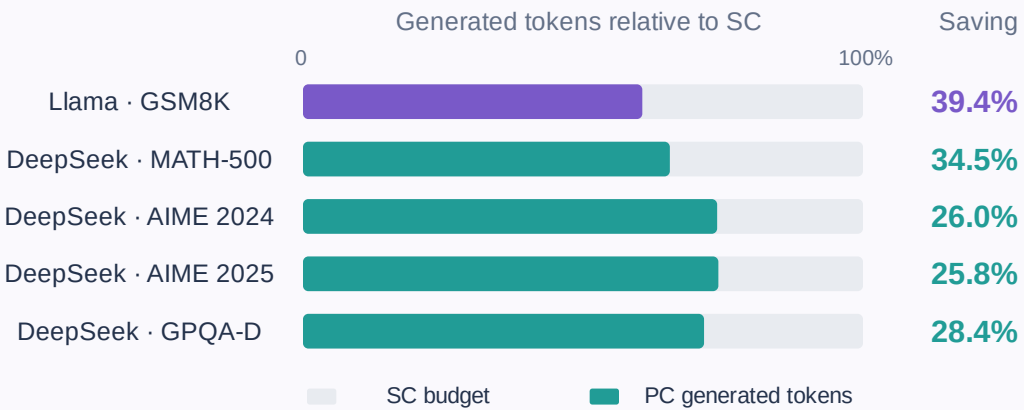
(a) Fewer tokens, similar accuracy

30.8%

mean token saving

25.8% to 39.4%

across five main-text comparisons



(b) Works with early-stopping methods

7%

additional token saving

Llama-3.1-8B-Instruct · GSM8K

SC = self-consistency. Bars show generated tokens, not total compute or API billing.

Panel (a) uses the reported grading, including DeepSeek regrading. Mean savings are unweighted across settings.
